SECTION 7 : OPEN COMMENTS

No	Question	1	2	3	4	5	Avg.	NA
7.1	<p>What helped you learn in this course?</p> <ul style="list-style-type: none"> Professor presented the material very efficiently. All learning can be attributed to him. Lectures. They were amazing Lectures, papers. Lectures in particular were excellent. I've never had so much clarity in any other course. 							

7.2	<p style="text-align: center;">What changes would improve your learning?</p> <ul style="list-style-type: none"> • Being able to discuss the evaluation right after being graded would have increased our awareness of our mistakes. As it stands right now, I have no idea where and why I lost. • Lower weightage, and more assignments • Maybe few papers could be presented by students. It sometimes become monotonous to just listen to the instructor teach. A dialog and debate kind of discussions would help in better underi of the paper. Exams should be more difficult and porje should be more structured. It felt somewhat easy for a 600 level course. More papers and content could've been covered instead of os revision.
